

what is

#ZIPTOS

There is a an untapped potential of “normies” starting to trade crypto. The differentiator is 24*7 use of smart phones and smart applications such as telegram which is extremely underutilized. This is where #ZIPTOS enters, on the APTOS chain! We aim to build secure and easy to use AI driven smart agents on the most accessed platform called Telegram as a start before expanding deep into DeFi.

We will offer something for all, from meme to utility, i.e. #memutility

Our product portfolio comprising of full stack smart agents like token deployer (fungible asset and legacy), flagship bulk token sender (first on Aptos) will start to tap into digital savvy existing and new investors. After capturing telegram’s capability to our advantage, Ziptos will move to create a one stop shop DaPP in the DeFi space with end to end smart apps leading to substantial increase in user base and liquidity and NFT trading

Why us
#ZIPTOS #ZIPAP

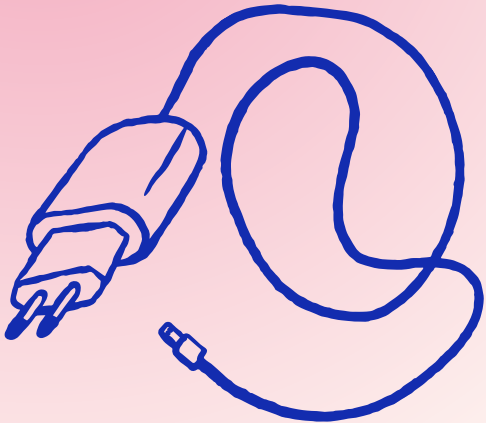

Already supported by leaders in Aptos space, partnerships, collaboration and further integration from mobile to any form of device leading into the much enjoyed DeFi space is on the horizon. We take one step at a time and grow in sync with APTOS ecosystem. Community is the center of our build, which means we will identify what community needs and bring imagination to fruit

Grab a mobile

Keep it ready

X: @ZIPTOS

P1

- Create socials, logo, telegram, build a base community
- Create awareness, approach Aptos leads, share vision
- Introduce first ever telegram smart agent Deployer and Multi wallet token sender- as an introduction of Ziptos and first ever on Aptos

P2

- Stress test flagship multi wallet token sender
- Stress test the flagship telegram token deployer
- Collaborate with notable projects
- Approach Aptos leads and socialize Ziptos
- Presentation in Twitter and Discord spaces
- Initial White-Paper and website complete
- Initiate Aptos Grant plan and submit application
- Commence designing and conceptualising DaPP ecosystem
- Ziptos token launch

#ZIPTOS

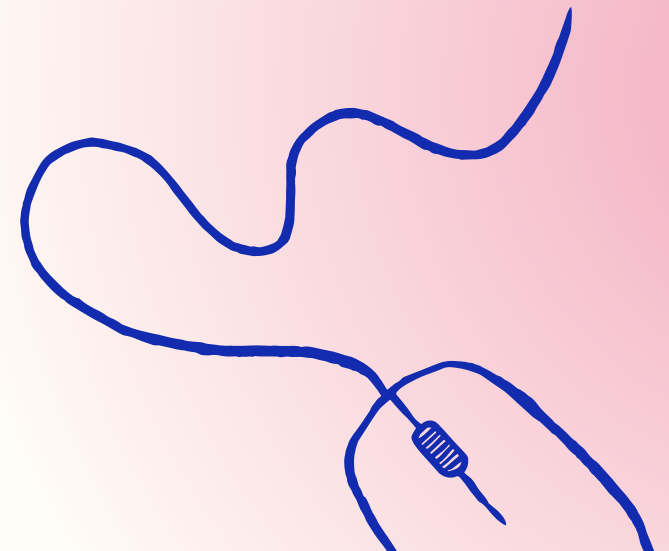

#Unzip the potential on Aptos

P3

- Continue building network and market Ziptos
- Grant received, expand team
- Official partnerships and collaboration
- Commence build on revolutionary smart agent products leveraging telegram capabilities (telegram wallet?)
- Commence design and build high speed lean Ziptos wholesome web and DaPP market (launchpad, replicate telegram tools, marketplace, multi sender, token deployer etc.)
- Revolutionary NFT airdrop app

move & make

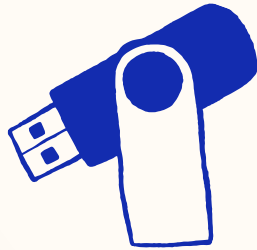

One of our secret recipe is to foster healthy lifestyle AND earn. Shhhhh...
Our game changer application. Do not click to earn

Build a Business

Reward holders

Ziptos will use the native currency as the center of Ziposystem (Ziptos ecosystem). Incentive to buy and hold the token will be one of the key drivers toward sustainability. ZipWallet to securely store and mine tokens

Contribute to Aptos ecosystem

Ambassador

Create Aptos awareness in countries like Australia in collaboration with Aptos leaders. Introduce Blockchain to the "normies". Create a social platform to encourage people to maintain healthy life AND earn!

Events,
conventions,
conferences

Bring communities to Aptos

Other chains -> Aptos

Bring Alpha whales from other chains to Aptos, how? Create apps that enable liquidity flow, volume, build high performance community. Enable actual use of a computer

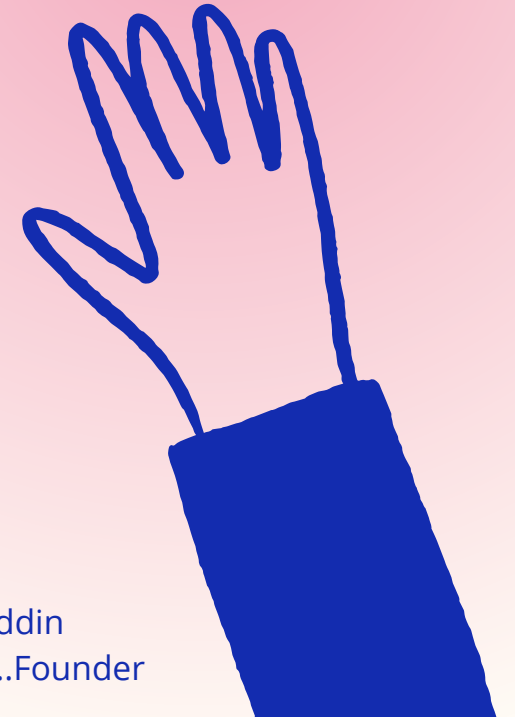

We see a credible need to increase volume and trade/exchanges on Aptos network. Ziptos to be ready when the "wave" hits Aptos

#ZIPMAP 1.0 2/2
